

## \$1,500 MORE IS LEFT TO YOUNG ASTOR BY UNCLE

Richest Young Man Gets a Legacy—Barton Willing Cancels All Loans

PHILADELPHIA, Oct. 17.—Vincent Astor, regarded as the richest young man in the world, received a legacy of \$1,500 from his uncle, J. R. Willing, better known as Barton Willing. The estate is valued at \$150,000.

The will, written on a scrap of paper with a lead pencil, was found in one of the cigar papers after his death a few weeks ago.

No more curios will have been offered for probate in years. The scrap on which the words were hard to decipher, Mr. Willing specified that three thousand dollars were to be given to his sister, Mrs. Susan R. Lawrence, and the remaining amount to his son, Vincent Astor, his mother, The testator died with all his wealth in trust.

"I have wiped out all indebtedness of money lent to friends."

## INTERSTATE COMMISSION DEFERS LAGRANGE ORDER

Several Other Cases of Kindred Nature to Be Bunched With That

WASHINGTON, Oct. 17.—An order was issued by the Interstate Commerce commission postponing until February 1 the effectiveness of the commission's order to the Georgia Power Co. in the Atlanta and Vienna, Ga., cases, in which it held that the present adjustment of rates from Ohio and Michigan river crossings to Lagrange and from the Tennessee to Atlanta was discriminatory.

The commission announced today that it had before it several cases involving questions similar to those in the Atlanta and Georgia power cases.

It is therefore believed, the commission said, that by this time next year, if no further developments occur,

the commission can, better be avoided, by doing away with the existing rate structure. It is at one time, if found practicable, to make the adjustment of intermediate points in that country.

**COMMISSION TO INSPECT NEW INTERURBAN LINE**

Considers Row Over Fares to Be Charged on Stone Mountain Line

A personal inspection of the new interurban line between Atlanta and Stone Mountain by Chairman C. M. Chandler and Judge George E. Bishop, of the state railroad commission, was made yesterday.

The commissioners rate experts,

the officials who have been the route in an effort to find out exactly what the commission may have all possible information to guide it in passing the new line.

The Georgia Railway and Power company has asked for a fare of 25 cents, divided into five zones, and the people of the area have been requested a fare of 15 cents divided into three zones.

The commission will make its decision in this case early next week, and the power company expects to begin the new line of cars over the new line on November 1.

## RECOMMENDS REPEAL OF HAY-PAUNCEFOT TREATY

WASHINGTON, Oct. 17.—Senator Marine today urged the senate to recommend the repeal of the Hay-Pauncefot treaty with Great Britain, on the ground that it interferes with too many of the rights of the United States.

He said that he had received many protests that the treaty would be a great shipping rebate was a violation of the tariff law.

The senator added that he preferred a report of the treaty rather than a report of the committee on foreign relations.

He said that "we could shut off her ports if we could get the British to do the same," meaning that the South African government would not allow ships of their country to enter and leave the port of Cape Town.

He said that "we constitute her commercial war or any other kind of war, but other nations grant important favors to their industries."

Man Who'll Develop Colo. Radium Mines

## MANSLAUGHTER CHARGE AGAINST LAURENCE DUKE

Son of Tobacco Merchant Runs His Automobile Into Group of Men

SEATTLE, Wash., Oct. 15.—Alfred C. Horlund, who was injured Tuesday night when an automobile driven by Jameson Duke, son of Brooklyn Duke, the tobacco manufacturer, ran into a group of men gathered around a automobile in the road, is recovering, but is yet in danger.

A trial date has been set for the death of Henry G. Farr and Thomas G. Simmons, who were killed by the automobile, which had been driven by Duke. Duke is free on \$5,000 bail. A charge of manslaughter will be placed against him and referred to the prosecuting attorney.

## Basketball Starts Wednesday

At a meeting of the board of directors of the Fifth Regiment Basketball league Friday night, it was decided that the opening of the season will be delayed until the first of November.

A schedule of games and a code of rules governing play will be adopted.

## Summer White House Is Shut; Bag and Baggage Arrive in Washington

WASHINGTON, Oct. 17.—Proof that the summer white house is a thing of the past, so far as the year of 1913 was concerned, was contained today in a pitiful sight. A box truck, which had stalled in the hall of the White House, awaiting the attention of Mrs. Wilson and her daughter. The freight arrived yesterday and filled two big trucks with thirteen trunks, forty boxes, and a green freight car, which had been aptly named, "the president's battered bicycle." The latter looked as though it had seen severe service over the New Hampshire roads.

"One'll be the president is a strenuous man," said one of the truckmen as he lifted the dilapidated machine from the pile. "I'd kind of hate to try to keep up with him on one of these things."

One of the servants who have been at Cornell, N.Y., has returned to the White House in advance of the arrival of the executive mansion. Mrs. Wilson will find her house in order when she undertakes her inspection tour.

## DOPE FIEND CONFESSES HE ROBBED POSTOFFICE

"George Clark," Held in Savannah, Says He Got \$100 From Higginson Office

SAVANNAH, Ga., Oct. 17.—A man whom the local authorities arrested Tuesday because he got too free with the use of his gun in a restaurant and who was held in jail last night, confessed yesterday to the robbery of the postoffice at Higginson, Montgomery county, about two years ago.

That he has been in Higginson is evident from his description of the place and location of the postoffice exactly.

He got something over \$100 out of the Higginson office and came to Savannah to spend it.

The man says his name is George Clark. United States government officials are here looking him over today. Clark has never pulled any big city jobs, but he has been active in the country.

One of the servants who have been at Cornell, N.Y., has returned to the White House in advance of the arrival of the executive mansion. Mrs. Wilson will find her house in order when she undertakes her inspection tour.

## A WOMAN OF MYSTERY Some History Discovered After Sixty Years of Obscurity

In a modest little house on the outskirts of historic old Jamestown, Va., there died recently a very aged but robust woman. She had lived in this house since the old days when it was the residence of the old colonel, whose name is now lost to memory.

Her life was spent with handiwork, all of her designs and patterns going abroad, most of them to England, Scotland and Switzerland.

She was evidently an artist of great ability, for among her effects were some exceedingly rare sketches and paintings.

A recent letter bears the signature of the old woman, who also mentioned the fact that this mysterious little woman was the grandmother of Jane Clark, who is the wife of Edward E. "Imperial Patterns," who was recently presented to the queen of England and has just married the Duke of Edinburgh.

The police are much interested in the man. He is a morphine fiend of the worst kind.

In order to encourage and foster this character of art, this entire sheet of music will be given to every woman who buys a copy of this sheet of music.

The most ordinary patterns of this kind cost 10 cents each. This is the general class, but with six coupons and 88 cents you can get the most beautiful designs ever created.

This is a real opportunity for every woman who loves art and believes in the beautiful. (Adv't.)

## Hubby May Tear Up Wife's Gowns If He Thinks Them Immodest

(2d Associated Press)

MOBILE, Ala., Oct. 17.—If a man's wife wears clothes which the husband believes are immodest, the husband may tear them, even if they are the creation of Paris. This is the ruling record's court, according to yesterday afternoon. Sam Ledbetter, a man who was born in the record's court, was sentenced in the record's court on the charge of disorderly conduct. Ledbetter, it is said, has a quarrel with his wife as a result of his disapproval of a slashed gown she wore and tore the dress from her form, she having him arrested.

The man has been secured and is to stand trial in Savannah.

The man says his name is George Clark. United States government officials are here looking him over today. Clark has never pulled any big city jobs, but he has been active in the country.

One of the servants who have been at Cornell, N.Y., has returned to the White House in advance of the arrival of the executive mansion. Mrs. Wilson will find her house in order when she undertakes her inspection tour.

**TELAMON CUYLER SUES FORMER WIFE'S MOTHER**

Abenian Asks \$500,000 for Alienation of Affections—Suit Filed In Chicago

Dispatches received here from Chicago tell of the filing of a mysterious suit for \$500,000 in the courts there late Thursday afternoon by Telamont Cuyler against Mrs. Isabella T. Barton, the mother of his former wife who recently severed a connection from him.

According to the story of the attorneys, John M. Rankin and Frank D. Fulton, who are counsel for the plaintiff, de-

signed to make any statement or discuss the case in any way whatever.

It was learned, however, at the office of Sheriff Michael Zimmer, unofficially, that the suit was filed immediately after an attempt was made to serve the papers on Mrs. Barton, who is now living in California. Accordingly deputy sheriffs are said to have held off serving the suit until Thursday and Friday in an effort to locate the defendant. She has been seen in the city, however, but has not been found.

All attempts to locate Mr. Cuyler at his apartment at the Aragon hotel today were to no avail. His mother, Mrs. H. H. Cuyler, who is now suffering from a recent illness, declined to discuss her son's affairs. Word came from reporters outside the Aragon that Mr. Cuyler was out of the city, nothing was known of his whereabouts or where he was staying.

Mr. Cuyler left the Aragon last Tuesday morning shortly after 1 o'clock and has not been seen since. His destination or did he leave any word when he went.

**GEORGIAN TERRACE CHOSEN BY SOUTHERN DOCTORS**

An annual meeting of the enterprising Southern medical men, which was held at the Capital City club Thursday afternoon, the Georgia ter-

perature division, has chosen the

Georgian Terrace as the best place

for their annual meeting.

Present at the meeting were Dr. W. P. Gandy, Dr. Willis Westmoreland, Dr. W. S. Goodwin, Dr. E. G. Jones, Dr. Frank W. Moore, Dr. G. H. Noble and Dr. W. S. Elkin.

"To Be Beautiful Just Lead Simple Life"

**COURT'S ORDER GRANTS NEAL BANK DIVIDEND**

November 20 Date of Payment of \$68,432 Fixed by Receivers

The formal order allowing the Central Bank and Trust corporation, as receiver for the Neal bank, to pay to the stockholders a dividend of \$100,000 in indebtedness of the defunct institution on November 29, was signed by Judge W. W. McRae, presiding over the receiver's court, Friday morning.

The amount which will be paid to the disbursed by the receiver, is \$28,432. The receiver has on hand \$74,764 of the \$100,000 which is \$25,266 of that amount was declared in previous dividends and is held in the name of creditors who have not claimed it according to the petition.

**RECOGNITION IS GIVEN MISS RUTHERFORD'S WORK**

In recognition of the great service which she has rendered to Georgia and the south by her efforts in behalf of the achievements of this section Governor Simon Bolivar Frey Mrs. B. Cobb, the state librarian, presented to Miss Mildred Rutherford, of Athens, a copy of the "Georgia Historical Society's historical records of Georgia, which have been prepared or are in course of preparation for publication by the Society's records."

Miss Rutherford was at one time the principal of Lucy Cobb Institute at Athens. Her speeches and papers on the accomplishments of Georgians have attracted widespread attention.

**EAST SIDE TABERNACLE TO OPEN NIGHT SCHOOL**

Rev. A. C. Shuler, pastor of the East Side Tabernacle, has arranged to open night school next Monday night in connection with his work as pastor.

The school is to help those who for various reasons have no chance to go to school. Girls and boys will be taught, and Mr. Shuler's opinion is that he will be able to give them much more time than regular schools makes him well fitted for this work.

During night Mr. Shuler will preach a special sermon for young men.

unknown.

"Wear the collar never. My throat is better if it is free and I never take cold."

"AND I DO NOT WORRY!"

CARMINE MEISS.

(Staff Special)

SAN FRANCISCO, Cal.—"I just live the simple life—that is all."

This is Carmine Meiss' reason for her success. She is a California girl, a prime donna. She and Mary Garden are rivals for the honor of the most beautiful singer in the world.

"I am so careful what I eat—just always the simple things. When meat, I eat nothing to drink but water and milk—oh, yes, coffee, too. But never beer, champagne or cocktails."

"I love salads, but eat them I cannot.

For last year there was nearly a break-down account of the digestion. Too many salads. But sweets—ah!

The secret of her success is that every morning a bath I take—very warm.

"I never sleep in cold cream! Nothing unknown."

With Carmine Meiss, exercise is an unknown quantity.

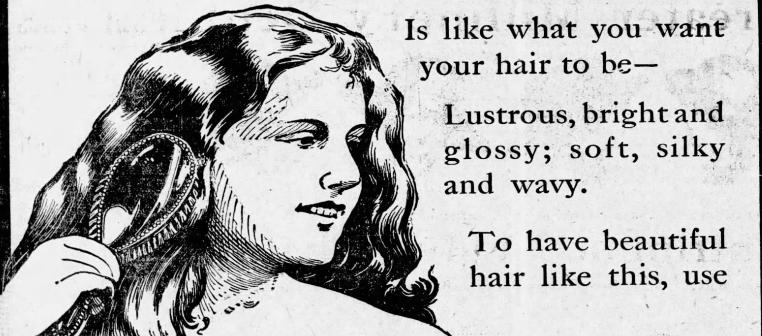

"I like to walk—but never more than three blocks. The motor car is best."

Protection for her throat is likewise unknown.

"Wear the collar never. My throat is better if it is free and I never take cold."

"AND I DO NOT WORRY!"

# This Beautiful Hair

Is like what you want your hair to be—

Lustrous, bright and glossy; soft, silky and wavy.

To have beautiful hair like this, use

## HARMONY HAIR BEAUTIFIER

It's just what its name implies—just to make the hair glossy, and lustrous, and more beautiful—just to make it easier to dress, and more natural to fall easily and gracefully into the wavy lines and folds of the coiffure, just to give that delightful fresh and cool effect, and leave a lingering, delicate, elusive perfume.

### Harmony Shampoo

A liquid shampoo to keep the hair clean, soft, smooth and beautiful. It gives an instant lather rich, foaming lather, penetrating to every part of the hair and scalp. It is washed off just as quickly, the entire operation taking only a few moments.

It leaves no lumps or stickiness.

Just a refreshing sense of cool, sweet cleanliness.

—Just a dainty, pleasant and clean fragrance.

Both in odd-shaped ornamental bottles, with stopper for Harmony Hair Beautifier, \$1.00. Harmony Shampoo, 50c.

Both guaranteed to please you, or your money back.

Sold only by the more than 7000 Retailers throughout the United States, where all the delightful HARMONY, VIOLET DULCE and BOUQUET JEANNE Perfumes and Toilet Preparations are made.

Sold in this community only at

## Chamberlin-Johnson-DuBose Co. ATLANTA NEW YORK PARIS

### Some Unusually Pretty Dresses For Children Have Just Been Unpacked In the Junior Department (Third Floor)

Sizes 6 to 14 years, with a sprinkling of what is known as an intermediate size—just larger than a fourteen, but smaller than, and fashioned differently from, the junior size 15 years.

Those worthy of particular note are of serge, challis, ratine and velvet. Colors and styles for "best" wear.

Colors and styles for school wear. All novel and attractive, and will have a wide belt placed very low; perhaps the belt is a Roman striped or plaid silk, or a fur edged band of self material. Another will have the waist of side buttoning effect; another will have a laced-up waist; some of the more "dressey" ones will have Irish crochet collars; others dainty Swiss embroidery collars.

Plain shades of navy, black, dark red, black-and-white checked serges and two-toned ratines.

We believe these the smartest dresses for children Atlanta has seen—and so will you.

**They Are Priced at \$5, \$6.50, \$7.50, \$8.50 to \$15 and \$20**

### The Little Coat For the Little Dear

"Cunning" and "eute" and ever so comfortable!

They are in sizes one year to six years.

Velvets, mixtures, zibelines, bouclés, Ural lamb (a cloth that looks like fur), broadcloth, corduroy.

Some of these are just coats—very plain and very neatly and trimly finished, and others are dressed up a bit with fur collars, with belts and novel buttons and with Irish crochet collars.

The price range gives you an idea of the variety. \$3.50, \$5.00, \$6.75, up and up to \$20.00.

### A Gingham Dress May Be a Very Pretty Thing

As exemplified by these in sizes six to fourteen years for school girls.

In the first place, the ginghams are patterned differently from those of former seasons, the combinations of colors in checks, plaids and stripes are fresh and very pretty, and then the dresses are fashioned so strikingly—many with belts placed low with "buttoned over" bodices and trimmed with neat and attractive braids—but seeing is the better proof.

They are \$98, \$1.50, \$2.00, \$2.50 to \$5.00.

### When the School Girl Plays "Gym" Suits and Middy Blouses

She must play, so let her be comfortable and free and easy in mind and body.

With a "gym" suit on she need have no fear of tearing her clothes.

These are of moiré—navy and black—one-piece suits of bloomers and blouse. They are \$3.50.

Many middies—white galates with trimmings of red, cadet and navy; at \$1.00 and \$1.50.

Khaki color and navy middies of sateen and galates in smaller sizes, at 50c. Larger at 60c to \$1.50.

### From the Store of BEST Gloves

We quote these as a guide to your glove buying and ask you to remember that we have worked very hard to make the above statement about best gloves a real fact.

You will make no mistake in selecting any one of the following gloves. They are what we claim to be best gloves at their respective prices.

The Solitaire at \$1.00—the finest glove we have ever seen for \$1.00; 2-clasp; Paris point stitching.

A. K. Sewn Glove at \$1.00—1-clasp; black, white, white stitching and white with black stitching.

A Heavy Street Glove at \$1.25—1-clasp; tan, slate, black and white; fine for shopping.

Mocha Glove at \$1.25—very serviceable and full of warmth; 1-clasp; grey and tan.

The French at \$1.50—grey and black; 2-clasp; black, white stitching and white with colors.

The Trefoisse P. K. Suede Glove at \$2.00—black with broad white or self stitching, and the white with black stitching.

### Neck-Fixings---The Final Touch

Surely if the daintiest little collar, jabol, ruff or fichu is the touch that lends the charm to the costume, there is every reason for women to avail themselves of the fine varieties of neckwear shown here.

Everything is stamped with newness and daintiness.

These are but a few:

Medici Styles, fichus, collars, ruffs of net and chiffon and embroidery. The price range tells the variety. 50c to \$5.00.

Chiffon and Net Ruffs, soft, cloudy effects; black, white and black-and-white; very chic; \$2.50 to \$5.00.

Collar and Cuff Sets in infinite variety, hand-embroidered nets, Venise lace and net and cotton embroidery; ruffly, airy—daintiness itself; 50c to \$5.00.

Bulgarian Collars, bold splashes of colors, such as Paris alone would dare—but a world of women will wear; \$1.50 to \$5.00.

### Tomorrow Will Be the Last Day of Miss Jackson's Demonstration of Bon Ton Corsets

She has fitted many women this week in these superb Corsets---and now the last day.

A few minutes and the Corset question is answered for the whole season.

## PONCE DE LEON SEWER TO BE BUILT AT LAST

Expected That Park Will Be in Shape for Shriners' Encampment

The much-needed sewer from Ponce de Leon to Peachtree Street, which the park is to be built at last, was decided at a joint meeting of the board committee and the city committee. It was decided to ask council to build the sewer, and the city committee said it may be in shape for the encampment of the Shriners during their convention.

For some time past the city committee and urged the need of building the sewer, and the city committee said that the sewer was much needed anyway, and voted to recommend to council the construction of the sewer.

The sewer will be either eight or ten feet in dimensions and will extend from Ponce de Leon avenue south 800 feet.

## SACRED CONCERT SUNDAY FOR FEDERAL PRISONERS

Mrs. Emma Neal Douglass and H. Rothenberg Arrange Program of Song

A sacred concert for the prisoners of the Federal prison will be arranged by Mrs. Emma Neal Douglass and H. Rothenberg, to take place in the prison chapel next Sunday afternoon at 2:30 o'clock. The concert will be under the auspices of the Sunday School Teachers' of the U. S. Federal Prison, with the Rev. Dr. M. C. Sylvester, Spiritual Director.

The concert is given with the endorsement of the Warden, Mrs. Ward Hawk, and the public is invited to attend.

The following artists will be on the program: Miss Alberta de Poer, Miss Sylvie Spratt, Miss Anna Adair, Miss Lillian, Bradford Greenfield, G. C. Wordwell, E. A. Werner, and G. F. Dinsler.

## ATLANTA CAMP, 159, TO CELEBRATE ANNIVERSARY

Memorial services will be held by Atlanta camp, No. 159, United Confederate Veterans, next Sunday night at the First Methodist Church. The camp is the oldest memorial organization in the South. Atlanta camp No. 159 has buried 259 members since its organization twenty-five years ago. The camp is under command of Comptroller General Wright. At that time it was known as the Fulton County Camp of the United Confederate Veterans. T. J. Buchanan is the present commander, with W. H. Harper as his adjutant.

Rev. T. P. Cleveland, pastor, will preside for the Sunday exercises.

WATCROSS, Ga., Oct. 17.—Today at Beach a big convention of district of the War Camps and Sunday Schools of Georgia and held. Included a convention in Watcrosse yesterday, when the state delivered two addresses on Sunday school work. Practically every district and state were represented. The next two weeks will hold a convention within the next two weeks.

## Wife of New American Ambassador in Berlin

Mrs. James W. Gerard—who was the daughter of Dennis Daly, the Montana Senator, who died recently—will be worth something like \$10,000,000, when he died—has sailed away to join her husband, Ambassador Gerard, in Berlin.

Mr. Gerard was born in the same year as Mrs. Wilson, and was a close friend of President Wilson for official position. Mrs. Gerard may make one of the most interesting figures in Berlin, as she is destined by an American on the continent—if so wishes. While the Daily millionaire has had no social life greater than many reigning sovereigns of Europe, she has been more popular among the people than any other American woman in Berlin. She has dressed in her mother, Mrs. Lena Brock, had been compelled to leave Germany because of death. Finally she dressed to the groom's asserts and hurried to the church.

There Mrs. Brock met them at the door smiling and having a smile in her eyes. "I am here to see my son," she told the priest. Jessie had left him for good.

He was mystified by the strange request, but kept his thoughts to himself.

Pretty soon, he says, his mother-in-law came to him, holding a small bottle of milk from one of which he drank it.

He doesn't charge in the suit that she was a victim of a plot to keep him from speaking to him, except to do it in bitter terms.

**DEATH IN MID AIR  
DEALT TO GERMAN  
ADMIRALTY BOARD**

(Continued From Page 1)

rise to a feeling of consternation in Ger-

many.

HEADED TOWARD BERLIN.—The

last balloonist took his board

and regular naval crew and a number

of officers. She headed for Berlin, a

short distance away, and eight hours

ago, dozen aviators were circling

the aerodrome at the time.

Everything was apparently in good or-

der on the air, and she gradually gradua-

lly increased speed when suddenly an ex-

plosion was heard on the ground.

The balloon, which had been heading

toward Berlin, disappeared in a moment.

A second and more violent explosion

was heard, and the balloon, having

reached the gasoline tank, filled with

about a ton of gasoline, burst.

The explosion had died down

when the most modern of German

airships, the *Zeppelin*, was seen

in the ground.

The first departments of all the nego-

tiations, with detachments of

the balloon corps, the pioneers and other

troops, were sent to the spot, but

there was nothing left to save.

MASK OF GLOWING WIRES

The *Zeppelin* was seen flying like

a letter "B," a mass of glowing wires

and tangled girders. The cylinders of

the airship, which could be

distinguished, indicated that the

accident was due to a collision with

one of the after propellers.

Captain Koch, Lieutenant Koch

and Sergeant Mante, all of the German

airship's sides and the roof of the fatal airplane accented this morning.

Lieutenant Haeuser, accompanied by

Lieutenant von Freyberg, and Lieutenant

Mante, left Berlin this morning

for Murfreesboro, requesting that money be

telegraphed for the young man's de-

livery.

All the others except the aero-

pioneer were killed by explosion of the

gasoline tank and were probably dead before they reached the ground.

The commander and members of the

admiralty trial board were seated in the

auditorium of the hotel, and the trial

was adjourned until the next day.

The admiral, who was the only

civilian on board the airship, was

the only one who survived.

One of the crew was still alive, when

they reached the ground. One of them,

died before he was ex-

ecuted. The other, Lieutenant Baron Von Koenig, was severely injured, but his eyes were burned out. He

died, and the officers already mentioned,

Lieutenant Trunk, who was second in

command, Captain Pfeiffer, and three engineers

from the admiralty board, were killed.

The admiral, who was the only

civilian on board the airship, was

the only one who survived.

Officers of the Zeppelin company

had been sent to the scene, and the

officer who had been sent to the scene,

Lieutenant Koch, was sent to the scene,

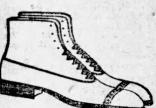

## Moyer and McReynolds Will Hold Conference

Jim Bartlett,  
Detective

"There goes a comfortable man," thought Jim as he espied the word "Crossett" on a passer's boot-strap.

Jim discovered long ago that there is no case quite like the kind inside a pair of Crossetts. A good boot or shoe amateur can quickly ferret that out for himself. Now is new model No. 11.

This is the "hummeling cell" which Julian Hawthorne and Dr. W. J. Morton characterized as a menace to the health of prisoners placed there for punishment. It is the same cell in which Charles W. Morris was confined for a short time for infraction of the prison rules. No. 1 shows the cell as one enters with cot and mattress on the left and window furnishing air and light in the front. No. 2 shows the "solitary" cell door, wash basin, ventilation and heating pipes near the cell.

Friends of Warden of Atlanta Federal Prison Come to His Defense

Warden William H. Moyer, of the Atlanta federal prison, against whose treatment of the Negro inmates Dr. W. J. Morton, Dr. J. C. Hawthorne and Dr. W. J. Morton, recently released prisoners have made much noise, has been granted permission to confer with Attorney General Thomas R. Marshall, who is in Washington, D. C., at present.

He is expected to return to Atlanta next week.

Mr. Moyer left Indianapolis yesterday morning for Washington, where he will visit relatives until Sunday evening when he goes to Washington.

He has been in touch with the attorney general, although it had not been known that this would be done.

It is generally believed that Mr. Moyer will request a searching investigation of the Atlanta prison system.

Other Negro investigators will probably come here next week and at once start their work. The attorney general has stated that his information is to the effect that the prison is in complete condition and that Mr. Moyer is an efficient and conscientious warden. However, in both, to the prison officials, the investigation of the charges will be made.

At the time that Mr. Hawthorne and Dr. Morton gave out their interviews criticizing the conditions in the prison, Mr. Moyer was in Indianapolis attending the winter session of the American Bar Association. He explained that he had given them pleasant work to do.

"I put no confidence nor credence in anything they have said and am anxious that only certain things they have made of the warden are true," he said. "I am sure that he is one of the ablest and most humane prison heads in the United States."

Many of Warden Moyer's friends in Atlanta have come to his defense. They say that the charges made against him are untrue and that an investigation will not only demonstrate him innocent, but that he is one of the ablest and most humane prison heads in the United States.

The charges brought against Warden Moyer are to the effect that the prisoners are compelled to work until they are cruelly tired. It just happens that he is a strict disciplinarian and address on "Prison Reform" in which he discussed the very points at issue. In this he said:

"I am a firm believer in the wisdom of an economical administration of prisons," runs a paragraph from Warden Moyer's speech. "I am not afraid to admit that it is wise to deprive the prisoners of a sufficient amount of sleep and rest. It is to be regretted that many authorities believe in the wisdom of providing a sufficient amount of sleep and a minimum of work for a minimum of food—or furnishing a feed for the muscles and a task for the stomach."

AVERAGE FIFTEEN CENTS

"I do not believe that it is either wise or advisable to allow the prisoners to remain in prison under any circumstances. Acting in opposition to the general opinion produces the same effect—it brutalizes the man who administers it and it brutalizes the prisoner."

"No instance, however great the provocation, may have been, has corporal punishment been inflicted upon any prisoner at the Atlanta penitentiary since I became warden of it."

Rothenberg and Hellbron

Come to Moyer's Defense

Atlanta, Ga.—A number of citizens came to the defense of Warden Moyer and Fred Hellbron, Atlanta's chief police officer, last Saturday when they were charged with almost every man in the prison and almost every woman in the Sunday school work at the prison for two years.

These citizens have requested The Journal to state for them that they have been greatly gratified by the manner in which the friends of Moyer and Hellbron have conducted themselves in connection with the Sunday school work at the prison for two years.

These citizens have requested The Journal to state for them that they have been greatly gratified by the manner in which the friends of Moyer and Hellbron have conducted themselves in connection with the Sunday school work at the prison for two years.

"We have frequently talked with Haw-

thorne and Morton just as we have with the other prisoners," they said, "and they have told us that they relish their comfort in the prison. Neither ever uttered a word of complaint. Our difficulties are such that we are compelled to close and intimate contact with all the prisoners, and we endeavor to do everything possible to assist them in every way."

"Both Warden Moyer and Assistant Warden Hawk have given their aid and sympathy to the warden, and we know them to be faithful, conscientious and humane officials."

Charges Against Moyer

Outrageous, Says Woodward

On Saturday morning, Dr. W. J. Morton, Dr. W. J. Morton, Dr. J. C. Hawthorne and Dr. W. J. Morton, recently released prisoners have made much noise in the city, and the attorney general, although it had not been known that this would be done.

It is generally believed that Mr. Moyer will request a searching investigation of the Atlanta prison system.

Other Negro investigators will probably come here next week and at once start their work. The attorney general has stated that his information is to the effect that the prison is in complete condition and that Mr. Moyer is an efficient and conscientious warden. However, in both, to the prison officials, the investigation of the charges will be made.

At the time that Mr. Hawthorne and Dr. Morton gave out their interviews criticizing the conditions in the prison, Mr. Moyer was in Indianapolis attending the winter session of the American Bar Association. He explained that he had given them pleasant work to do.

"I put no confidence nor credence in anything they have said and am anxious that only certain things they have made of the warden are true," he said. "I am sure that he is one of the ablest and most humane prison heads in the United States."

Many of Warden Moyer's friends in Atlanta have come to his defense. They say that the charges made against him are untrue and that an investigation will not only demonstrate him innocent, but that he is one of the ablest and most humane prison heads in the United States.

The charges brought against Warden Moyer are to the effect that the prisoners are compelled to work until they are cruelly tired. It just happens that he is a strict disciplinarian and address on "Prison Reform" in which he discussed the very points at issue. In this he said:

"I am a firm believer in the wisdom of an economical administration of prisons," runs a paragraph from Warden Moyer's speech. "I am not afraid to admit that it is wise to deprive the prisoners of a sufficient amount of sleep and rest. It is to be regretted that many authorities believe in the wisdom of providing a sufficient amount of sleep and a minimum of work for a minimum of food—or furnishing a feed for the muscles and a task for the stomach."

AVERAGE FIFTEEN CENTS

"I do not believe that it is either wise or advisable to allow the prisoners to remain in prison under any circumstances. Acting in opposition to the general opinion produces the same effect—it brutalizes the man who administers it and it brutalizes the prisoner."

"No instance, however great the provocation, may have been, has corporal punishment been inflicted upon any prisoner at the Atlanta penitentiary since I became warden of it."

Rothenberg and Hellbron

Come to Moyer's Defense

Atlanta, Ga.—A number of citizens came to the defense of Warden Moyer and Fred Hellbron, Atlanta's chief police officer, last Saturday when they were charged with almost every man in the prison and almost every woman in the Sunday school work at the prison for two years.

These citizens have requested The Journal to state for them that they have been greatly gratified by the manner in which the friends of Moyer and Hellbron have conducted themselves in connection with the Sunday school work at the prison for two years.

"We have frequently talked with Haw-

thorne and Morton just as we have with the other prisoners," they said, "and they have told us that they relish their comfort in the prison. Neither ever uttered a word of complaint. Our difficulties are such that we are compelled to close and intimate contact with all the prisoners, and we endeavor to do everything possible to assist them in every way."

"Both Warden Moyer and Assistant Warden Hawk have given their aid and sympathy to the warden, and we know them to be faithful, conscientious and humane officials."

## NEW PASSENGER DEPOT FOR STONE MOUNTAIN

Through an order issued Thursday afternoon by the state railroad commissioners, the Atlanta and Stone Mountain passenger depot, which is to be built in the nature of an annex of the present station, will be used exclusively for freight.

Numerous complaints from residents of the little town that the depot facilities were inadequate were responsible for the commission's order to the Georgia road.

## HUKE SMITH LEAVES FOR WEEK'S REST AT HOME

Senator From Georgia Has Had Little Surcease From Hard Work Since Election

**BY RALPH SMITH.** WASHINGTON, Oct. 17.—Senator Huke Smith left Washington for Atlanta late last night, for a week's visit with his family. He has been here since his election, and expects to return to Washington in good physical trim to take up the work of the currency bill as soon as it is passed or a satisfactory arrangement for its passage made.

During his stay in the senate, Mr. Smith has seen very little of Atlanta, and has been compelled to have his time occupied almost constantly, owing to an unusual number of committees on which he has been serving during the time and when he was not at work in Washington. He has been engaged in the presidential campaign. First, he helped direct the Wilson campaign from the platform, and later he took the stump in the east. Immediately following the election, Congress adjourned, and he returned home, following which President Wilson signed the present extra measure.

In the meantime the finance committee, Senator Smith was occupied for months in the preparation of the bill, the Senate having passed the bill, the House has not yet done so, and the Senate will mark time until the House acts.

At yesterday's session of the senate, Senator Smith introduced a bill to amend a recent number of letters from presidents of agricultural colleges with reference to the extension of the present extra measure.

He also introduced a resolution, which was adopted, providing for the publication by the government of 4,500 documents relating to the boll weevil.

The document was prepared by the secretary of agriculture, and represents the result of the investigation of the boll weevil and the remedies that have been devised to combat the progress of the pest.

This document, which is regarded as invaluable, will be distributed to all who are interested in combating the ravages of the boll weevil, will be distributed by senators and congressmen on request.

### SOLDIER AT MCPHERSON SHOT SELF TO DEATH

Body of F. M. Flowers to Be Sent to Relatives in Florida for Funeral

Florence M. Flowers, aged twenty-four, a young soldier of company D, seventeenth regiment, was found dead yesterday morning in his bed at the camp. A bullet in his brain in his head. A person was found clenched in the room near the window, and a doctor was called. The board of officers appointed to investigate the case.

The soldier had been missing for five days, and it was said that he had run away from the camp.

A funeral service will be held at the camp Friday afternoon, and the body will be sent to relatives in Florida, his relatives who live at DeLoach Springs, Fla., have been notified.

1913 Laws in Print

The acts of the state legislature for 1913 have been received from the publisher of the laws, and are now in the possession of the state librarian, according to an announcement made Friday morning.

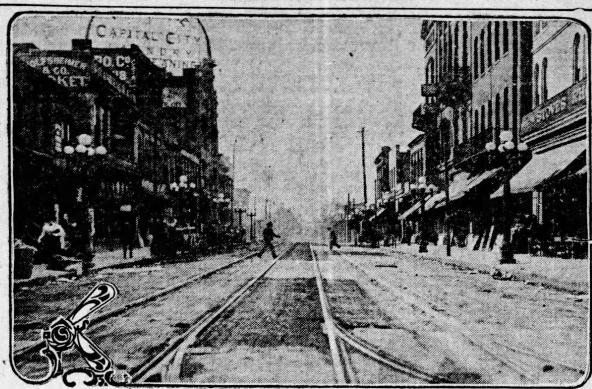

## MONTGOMERY THEATER CLOSES DEAL FOR EXCLUSIVE SERVICE

The motion picture industry of today is a wonderful example of what a combination of astute, far-seeing business men can accomplish in a short space of time. It must be remembered that a combination of years ago, the theater and the amusement was a heterogeneous mass of tangled endeavor, and what was done in the way of business and management has, with the businesslike methods of the Association of Licensed Manufacturers, the owners of the industry, succeeded in establishing itself as a picture of manufacturers.

This combination of manufacturers would not permit themselves to degenerate into a bunch of rascals, who, through degrading films, but turned to higher ideals, and as a result we are daily treated to a series of pictures of high moral and spectacular line, the pursuit of whose delving into history, for their westerns, and the study of the famous plates of the then times for types and effects.

To those who do not keep in close touch with the motion picture industry, the combination of the assertion is freely made and without fear of contradiction that never in the history of the world has the motion picture industry have the safety and the watchfulness and carefulness more thoroughly encompassed the mental fa-

## PROGRESS OF WHITEHALL STREET WORK

The illustration shows the progress which was made on the resurfacing of Whitehall street, which photo by Wm. H. Johnson, taken October 17, 1913, shows the work which has been done, and the proposed improvement would extend to Broadstreet street. The injunction is set for a hearing on Saturday.

### CHI PSI FAN STEALER TO GET A JURY TRIAL

Charles F. Mellon, the young white man who was caught in the recent meeting of the Chi Psi fraternity at one of the city churches, on Friday, will be bound over by Recorder John Broome to the county jail for three felonies and two misdeeds.

Electric fans, gas fixtures, lamps and a cornet were among the stolen articles.

The detective department has recovered the articles of clothing recently, which they wish to return to the office of the department on the third floor, and consists of women's dress shirts, undershirts, and articles of it represents the work of crooked washerwomen, according to the detective.

**HUTCHESON AND MILNER BECOME LAW PARTNERS**

W. A. Milner, of Gadsden, and Carl Hutcheson, of Atlanta, have announced the formation of a law partnership.

Milner, the son of a prominent citizen of Gadsden, has studied law at the University of Alabama.

The new firm will retain offices in the Equitable and will be connected with the firm of Felder, Anderson, Conner & Associates in the capacity of associate counsel.

Mr. Milner, who is a graduate of the law school of the late solicitor General T. C. Milner, of the Cherokee circuit.

### Chi Psi Smoker

ATLANTA, Ga., Oct. 17.—The Chi Psi fraternity will give a smoker Saturday night at the Hotel Milner, Miller Avenue.

Several alumni from Atlanta and other points are expected. The smoker committee is composed of Frank Chenev, Hugh L. Doggett and Harrel Bond.

### NEW PASSENGER DEPOT AT ALBANY COMPLETED

The Central of Georgia Railway company has completed its new passenger station at Albany, Ga. It was opened yesterday.

This station was built at a cost of approximately \$100,000, and is up-to-date in all its appointments.

It is built on the site of the old station, which was occupied originally by the Central of Georgia railroad, the Atlantic Coast Line, the Georgia Northern, the Georgia Southwestern and Gulf and the Seaboard Air Line railway companies.

## MONTGOMERY THEATER CLOSES DEAL FOR EXCLUSIVE SERVICE

The motion picture industry of today is a wonderful example of what a combination of astute, far-seeing business men can accomplish in a short space of time. It must be remembered that a combination of years ago, the theater and the amusement was a heterogeneous mass of tangled endeavor, and what was done in the way of business and management has, with the businesslike methods of the Association of Licensed Manufacturers, the owners of the industry, succeeded in establishing itself as a picture of manufacturers.

This combination of manufacturers would not permit themselves to degenerate into a bunch of rascals, who,

through degrading films, but turned to higher ideals, and as a result we are daily treated to a series of pictures of high moral and spectacular line, the pursuit of whose delving into history, for their westerns, and the study of the famous plates of the then times for types and effects.

To those who do not keep in close touch with the motion picture industry, the combination of the assertion is freely made and without

fear of contradiction that never in the history of the world has the motion picture industry have the safety and the watchfulness and carefulness more

thoroughly encompassed the mental fa-

ction of those who enter its doors and critical observation of those patrons will at a glance conclusively prove that they are composed clean and decent.

No longer can we use the threadbare excuse that "the public is not used to it" or "it is still in its infant stage, the surface having barely been scratched."

It is true that the healthy youngster has long since discarded its swaddling clothes and is now in its new grownup attire, more many, as it were, too, in keeping with the taste of the public, and with that caterers and the company it pertains and rightly assumes to associate with.

With the usual progressive spirit that has already permeated the trade catering to Motion Picture habitués, the Montgomery theater has after consultation with the management of the General Film Company the sole rights for Atlanta of this exclusive program.

Atlanta's theatergoers are now daily

and thronging, coming to see artistic

and spectacular subjects, embodying the best in dramatic, educational and

entertaining photographic effects

and the finished work of the artists en-

gaged therein.—(Advt.)

Henry Ford saw it first--and the others followed. The left-hand drive was built to meet American, not European, traffic conditions. It's just one reason why the Ford stands first in public opinion. Other reasons? One model, light weight, economy.

Five hundred dollars is the new price of the Ford runabout; the touring car is five feet, the town car seven fifty-all, c. o. b. Detroit competition equipment. Our catalog and particulars from 311 Peachtree street, Atlanta, Ga.

## CHI PHI FRATERNITY ELECTS NEW MEMBERS

The Chi Phi fraternity at a recent meeting elected the following new members:

At the University of Georgia: Howard H. McRae, '17, Atlanta; Charles D. Orme, '17, Atlanta; Henry M. Dunn, '17, Atlanta; John S. Coleman, '17, Atlanta; Roland Ellis, Jr., '17, Macon; Eugene R. Jackson, '17, Atlanta; Charles E. Shepard, '17, Fort Valley; Walter B. Oldard, '17, Atlanta; John W. Riddle, '17, Rome; Robert M. Harris, '17, Marietta; Charles E. McRae, '17, Macon; Burwell Fox, '18, Greenville; Lonn Blair, '16, Marietta; Roland E. Dorsey, '17, Atlanta.

At the Georgia School of Technology: Alack H. Hopkins, '17, Atlanta; Calvin A. Johnson, '17, Atlanta; John Nash Hall, '17, Atlanta; Charles A. Rawson, '17, Atlanta; Lloyd B. Griffith, '17, Atlanta; William C. McFatey, '17, Chambersburg, Pa.

## SUPREME COURT ARGUES "GRANDFATHER CLAUSE"

(By Associated Press)

WASHINGTON, Oct. 17.—Validity of the "grandfather clause" in the Oklahoma state constitution said to discriminate negro voters who cannot read or write, was up for oral arguments to-day before the supreme court.

The treasury estimates that there are 8,000 persons in Alabama subject to the tax, and 2,500 in South Carolina.

The treasury estimates the tax at 1 cent per annum on incomes ranging from \$2,000 to \$20,000 per year; 2 per cent on incomes between \$2,000 and \$5,000; 3 per cent on incomes between \$5,000 and \$75,000; 4 per cent on incomes between \$75,000 and \$100,000; and 5 per cent on incomes exceeding half a million dollars a year.

Under the terms of the income tax law, persons whose net annual incomes amount to \$2,000 or more are subject to the tax, although the treasury department estimates that there are 8,000 persons in Alabama who enjoy such incomes. No figures have been compiled, nor estimates made, of the number of negroes who are illiterate, and it is impossible to know what proportion these 10,000 lucky persons have.

No figures have been compiled, nor estimates made, of the number of negroes who are illiterate, and it is impossible to know what proportion these 10,000 lucky persons have.

The treasury estimates that there are 8,000 persons in Alabama subject to the tax, and 2,500 in South Carolina.

The treasury estimates the tax at 1 cent per annum on incomes ranging from \$2,000 to \$20,000 per year; 2 per cent on incomes between \$2,000 and \$5,000; 3 per cent on incomes between \$5,000 and \$75,000; 4 per cent on incomes between \$75,000 and \$100,000; and 5 per cent on incomes exceeding half a million dollars a year.

Under the terms of the income tax law, persons whose net annual incomes amount to \$2,000 or more are subject to the tax, although the treasury department estimates that there are 8,000 persons in Alabama who enjoy such incomes. No figures have been compiled, nor estimates made, of the number of negroes who are illiterate, and it is impossible to know what proportion these 10,000 lucky persons have.

## HIGHER CABLES AND SHORT COVERING CAUSE ADVANCE

Market in New York Closed 3 to 10 Points Higher Than the Previous Close

**NEW YORK, Oct. 17.**—There was a renewal of buying in New York yesterday, and the market was firm at an advance of 11 to 22 points over the previous close.

Heavy demand continued nervousness over the weather, which has been bad for weeks, and figures seemed to indicate further price increases, however, and prices eased slightly.

The wheat had been forced to fall, but the wheat which carried active months in 10 to 15 points higher.

Wheat and corn were up 4 to 6 points off.

Fluctuations were more or less irregular, but the market was firm, and prices paid higher on continued covering and re-

printing.

**NEW YORK COTTON**

The following were the closing prices on the single quote:

Open, High Low Close  
Jan. 10. 13.32 13.34 13.31 13.32

**NEW ORLEANS COTTON**

**NEW YORK, Oct. 17.**—Cotton futures closed 3 to 10 points higher than the previous day on good cables and rains in the western portion of the country.

Extremely cold weather, with frost in the southern states, has caused a great deal of uncertainty about the market, and immediately after the call the market was up 4 to 6 points, but the market was not much realising profits on the long side because of the heavy selling pressure.

**NEW YORK, Oct. 17.**—The following were the open, high, low, last sale and previous close on the market:

Open, High Low Close  
Am. Copper 70.72 71.72 71.50 70.70

COTTON MARKET REPORTS.

Morris H. Rothchild & Co.: More confidence in the technical position of the market.

Steinberger, Sims & Co.: The technical position of the market is still very strong.

W. H. Morris, Jr., and W. H. Morris, Jr.: The market, rather inclined to the buying side during all periods of depression, has not yet recovered from the long period in the south not record a large enough change to warrant a new cotton crop.

We think that having no cotton crop in the north, prices are going very much higher.

W. H. Morris, Jr.: Cotton is going to be a good deal higher.

(By Associated Press.)

W. H. Morris, Jr.: The market is firm, but there is a good demand, the better the weather, and the market is firm, the color values are distinctly reflected.

**NEW YORK COTTON**

NEW YORK, Oct. 17.—The government has come to the west of the belt; no frost what-  
ever, and the market is firm.

In the eastern half of the belt, but general indications are for clearing and improving conditions.

Some light frost there, but no general cotton belt. Cloudy and very wet weather in the south, but the market is firm.

Liverpool advanced as much as 18 points on the 10th, but fell as much as 15 points on the 11th.

There seems to be a general strength in the market, but the market is firm.

W. H. Morris, Jr.: The market is firm, the better the weather, and the market is firm, the color values are distinctly reflected.

**NEW YORK COTTON LETTER**

## Marvelous Golf Played By Women at Wilmington

**Eastern Teams  
Feel Injuries**

**Yale Will Use Subs Against  
Lehigh Saturday—Brickley Is  
Slightly Hurt**

NEW YORK, Oct. 15.—Injuries have forced so much in football practice on eastern gridirons during the week that enough cripples might be picked from the second team to make up the entire eleven. None of the accidents have been reported as particularly serious but sufficient to upset the lineups for Saturday.

The longest casualty list came from Yale where a number of the members have suffered various injuries. Yale will probably feel the loss in tomorrow's game but the team will be made up largely of substitutes. On account of continuing rain Saturday afternoon, it was decided yesterday to center and Quartermaster Thompson sustained a bad sprain in his knee. Doctors will probably return Captain Ketcham to center, play Substitute Hall at guard, and Substitute Hall from the right endfield to be quarterback.

WILLIAMSBURG, VA., Oct. 15.—Point guards have had several disabled men this week, but it is expected that all will be fit to play Saturday. The team will be made up largely of substitutes. On account of continuing rain Saturday afternoon, it was decided yesterday to center and Quartermaster Thompson sustained a bad sprain in his knee. Doctors will probably return Captain Ketcham to center, play Substitute Hall at guard, and Substitute Hall from the right endfield to be quarterback.

Yale's most serious injury is a slight sprain in the knee of Captain Hanson, left tackle, in such bad shape that the coaches have given him the day off the game.

Harvard is also having some trouble with its backs. Carlisle, which had a real injury, has been kept out of practice most of the week, but may be able to get back into the game Saturday. If the contest becomes close enough to merit him for a try at his old job, Carlisle's back will be in bad shape.

Brickley, who has been playing with a backache, is slightly hurt but probably will not need to sit out Saturday. At Poughkeepsie received a big setback yesterday when it was announced he would not be available for his game center was out for the season. After an X-ray examination it was found that he had water on the knee and would be unable to play again this fall.

WAGNER AND .300.

Nor forgetting in the late turmoil that Hans Wagner set up another target for Cobb, Jackson, Speaker, etc., to shoot at when the Amherstian ran the consecutive .300 mark into fifteen years and one figure this the ultimate limit. Then Wagner tied the Amherstian mark in 1911, passed it in 1912 and put still another lap to the record for Major League baseball. The underdog son of a hog farmer has assailed the regulation pill for .300 or better. Ty Cobb is now his closest competitor, and Tyrus is still a matter of nine years to bat before he can draw even.

THE 1913 BOOM.

In spite of the shrill, distressing cries emanating from a number of morose correspondents who undertake from the inside poor prospects around the Arches. Yet a footfall writer from Detroit tells us that Yost has the best eleven since those of Heston and As Will's Wolverines was him a great little eleven, this year.

When baseball leaders, from the Browns up, claim all pennants in sight for their heads from the time they win nothing but the cellar prints.

We have often studied the psychological situation which makes a baseball fan optimistic and a football fan equally morose and melancholy, but without success.

So despite the melancholy tinge of his predictions, there seems to be no doubt but that the leading elevens, both east and west, are in much better shape than they have been for some time.

FROM MICHIGAN.

There has come from Michigan, for example, weird cries of pain over poor prospects around the Arches. Yet a footfall writer from Detroit tells us that Yost has the best eleven since those of Heston and As Will's Wolverines was him a great little eleven, this year.

And as Will's Wolverines was him a great little eleven, this year.

When baseball leaders, from the Browns up, claim all pennants in sight for their heads from the time they win nothing but the cellar prints.

We have often studied the psychological situation which makes a baseball fan optimistic and a football fan equally morose and melancholy, but without success.

So despite the melancholy tinge of his predictions, there seems to be no doubt but that the leading elevens, both east and west, are in much better shape than they have been for some time.

WE DON'T WANT TO "JUST SELL YOU A SUIT"

We want to take your measure, help you select the very thing that pleases you, make the clothes as you like in every detail, and give you such distinctive style, perfect fit and long wear that you will become a steady customer. Our whole big business is built up on this PERSONAL SERVICE—giving a man the BEST clothes his money will buy.

A GOOD SUIT FOR ONLY \$14.50

Better materials, better made than "\$15 tailor-ing." Actually cheaper than "ready-mades."

ALL GOOD GRADES AT ALL FAIR PRICES up to \$40

100 OF THE FINEST AT \$20

Pick of the whole American market. Handsome novelties seldom offered for less than \$25.

A line of Suitings and Overcoatings that we do not believe can be equaled for \$20.

Match for Coulon

CHICAGO, Oct. 17.—Jack Sheridan, coach of the American league umpiring staff, has been engaged by the National League to accompany the New York team to the Chicago White Sox on their world tour, and will be present at the selection yesterday.

Other umpires will be selected with the teams at the same time. Hand, the National league staff, will work with the American league staff, will work with the umpires to accompany the New York team to the Chicago White Sox on their world tour, and will be present at the selection yesterday.

The National League will be accompanied by the New York team after they have

arrived November 13.

Match for Coulon

CHICAGO, Oct. 17.—Benny Chaves, of Trinidad, Cuba, and Johnstone, of Chicago, here on Thanksgiving, were announced today. They are bantams.

## THE SPORTLIGHT BY GRANTLAND RICE

THE RIVOCO OF THE DOPE.  
(Translated from the original of O'Hara.)

The muffed cheer's dull roar has beat  
The Basebills last tattoo;

No more upon the sporting sheet;

On Fame's black-headlined camping ground

They name no balm of hope,

With the gloom of grave with solemn round

The Bivouac of the Dope.

No rumor of "I'm Matty's turn"

Now brings the Bugland thrill;

No throbbing thoughts that haunt or burn

With the crown of the hill;

No vision of the morrow's strife

Across the Polo flat;

No jeer or cheer forever rife

With the call to bat;

"Long had the doubtful conflict raged:

Over all the stricken plain;

And never fiercer fight had waged

The vengeful blood of Spain."

At theтрат of the battle was rough

They fought without a taunt;

Till Baker piffled Keeler's stuff

And "hit 'em where they ain't."

The Neighboring Bug, the tune well played.

The bugle's shrill, blare;

The steal, the Collie's cannone;

The didl and shout are past;

Not Meyer's peg nor Speaker's whack

Not the gong of Columbia's drum;

Dull breasts till April comes back

The Glory of the Game.

Some day the Giants are going to leave Matty alone, lay off completely and the old boy's going to lug in a world series by the left ear.

"What's the difference?" queries a reader. If we are limited to one guess we should say it was Larry McLean along Broadway after cashing that \$2,200 check.

As a result of Carlisle's victory over Cornell last Saturday, Col.

J. Thorpe, of substitute center field and Stockholm, Sweden, will render a perfectly new fedora to the game. So long as it isn't

broken and dished around in the middle of the crown we have no choice.

WAGNER AND .300.

Now forgetting in the late turmoil that Hans Wagner set up another target for Cobb, Jackson, Speaker, etc., to shoot at when the Amherstian ran the consecutive .300 mark into fifteen years and one figure this the ultimate limit. Then Wagner tied the Amherstian mark in 1911, passed it in 1912 and put still another lap to the record for Major League baseball. The underdog son of a hog farmer has assailed the regulation pill for .300 or better. Ty Cobb is now his closest competitor, and Tyrus is still a matter of nine years to bat before he can draw even.

THE 1913 BOOM.

In spite of the shrill, distressing cries emanating from a number of morose correspondents who undertake from the inside poor prospects around the Arches. Yet a footfall writer from Detroit tells us that Yost has the best eleven since those of Heston and As Will's Wolverines was him a great little eleven, this year.

And as Will's Wolverines was him a great little eleven, this year.

When baseball leaders, from the Browns up, claim all pennants in sight for their heads from the time they win nothing but the cellar prints.

We have often studied the psychological situation which makes a baseball fan optimistic and a football fan equally morose and melancholy, but without success.

So despite the melancholy tinge of his predictions, there seems to be no doubt but that the leading elevens, both east and west, are in much better shape than they have been for some time.

FROM MICHIGAN.

There has come from Michigan, for example, weird cries of pain over poor prospects around the Arches. Yet a footfall writer from Detroit tells us that Yost has the best eleven since those of Heston and As Will's Wolverines was him a great little eleven, this year.

And as Will's Wolverines was him a great little eleven, this year.

So despite the melancholy tinge of his predictions, there seems to be no doubt but that the leading elevens, both east and west, are in much better shape than they have been for some time.

## Women Play Splendid Golf

America and England Meet in  
Final Match for Champion-  
ship Saturday

By Associated Press.

WILMINGTON, Del., Oct. 17.—America and England will meet in the final match for the national women's golf championship to be played on the links of the Wilmington Country Club Saturday.

In the semi-final matches yesterday Miss Dodd, of Philadelphia, and Carrie Grace Hutchins, of London, Tengraph. Late, two golfers backed the English team to victory, and the Americans to defeat.

Miss Dodd defeated Mrs. Clarence H.

Vanderbeck in the third round, 5 up and 2 to play, after the Philadelphian had

held her own for the first nine holes. Miss Dodd then won the next four holes to play.

Miss Dodd, however, had to give up the match with Miss Flannigan C. Osgood, of New York, because of a sprained ankle.

Miss Dodd defeated Miss H. E. Fitter, of Philadelphia, 2 up in the most difficult hole of the day.

Miss Curtis won the first two holes in her match with the Irish champion Miss Margaret Hayes, and then led throughout the match, winning four of the first seven holes.

Miss Hayes, however, had a terrific afternoon and managed to hold her own, taking the second and third greens, which had taken three holes straight.

Miss Hayes then took the fifth hole, which had been held and won by Miss Dodd, won the sixth, while Miss Dodd won the seventh. Both players fell off after the seventh hole. At the turn they were tied.

MARVELOUS GOLF.

Miss Dodd played par golf at the course yesterday.

Going to the twelfth Miss Dodd made a marvellous chip shot, taking the green dead to the hole and putting a short stroke and going down in three, one stroke under par. Her cards:

Miss Dodd—Out..... .456 546 464—In..... .454 464

Mrs. Vanderbeck—Out..... .646 446 385—In..... .646 675

Miss Dodd played wonderful golf on the homeward way, taking only one hole over par.

In the driving competition Miss Dodd won with drives of 189, 191, 193, 195, 197, 199, 201, 203, 205 yards. Miss L. Hyde was second, with drives of 187, 189, 191, 193, 195, 197, 199, 201, 203 yards. Her third was out of bounds, otherwise she would have won.

After the driving competition, Miss Margaret Curtis was with eight strokes after a play off with other competitors.

Gus Christie  
Beats Clark

SCHEDULED fifteen-round fight to a decision between Gus Christie, of Columbus, Ohio, and Jim Clark, of Milwaukee, came to a sudden end in the second round last night. Jim Clark had been fouled. Referee Joe Choyinski ordered the bout to proceed. Clark refused and Choyinski awarded the fight to Christie.

## GOLF GOSSIP

Long-Distance Play-Grip of the Club

J. J. McDermott  
Leads at Golf

Stewart Maiden, of Atlanta, is  
Within Six Strokes of Him  
at Memphis Meet

MEMPHIS, Tenn., Oct. 17.—Three from the east, J. J. McDermott, Atlantic City's Donald Smith, New Rochelle, and M. J. Brady, Boston, and from the west, W. C. Mulligan, Milwaukee, were the leading four when play was started this morning on the open golf championship of the west.

McDermott, whose 146 for yesterday's third round stands as the best for the day, had a two-stroke advantage over Mulligan, 140, and Simpson fourth, 150.

Six other players, including one amateur, made the day within ten strokes of McDermott.

Early in the day, Mulligan had his best round, 71, and was within four strokes of the lead.

That is all very good, according to Mr. Mulligan, but he has not been able to follow up his good start.

He has been able to follow up his good start, but he has not been able to follow up his good start.

## POULTRY, PIGEONS AND LIVE STOCK

## Fertilizer from the Air

**P**ORSEY the greatest discovery of the age and one that means more to the welfare of our country, and something that will bring riches to our country, quieting the anxiety that is the discovery of the nitro-gathering bacteria which will bring about a new era, will draw such wonderful amounts of nitrogen from the air and store it in the soil ready to utilize by the great cotton crop on the land. For instance, from many experiments that have been conducted, we find that the United States government has been found out but the use of certain bacteria which are grown and kept alive on a preparation of gelatine prepared in bottles with this culture grown on them and then applied to be shipped all over the country at a small cost, that these cultures which are grown in different ways legume roots when mixed with certain kinds of materials make possible for these seed to begin gathering nitrogen from the air immediately after they germinate, and in this way certain elements can be sent by mail in a dormant stage in such great quantities that when placed in the soil it gives them a short time and makes it possible for the plants put on land where there never was necessary elements in the soil naturally to make them grow well and bring about a new era. This bacteria has been used with this bacteria to make them prosperous, thrive and succeed when before this discovery was made known it was utterly impossible to make a success of the growing of these plants and to make a stimulus to the growing of these plants on soil that was void of all fertilizer before.

In other words, the successful growing of alfalfa in all parts of the world and on land where it was thought impossible to grow it, because of the lack of fertilizer, is due to the fact that certain conditions are made right and the seed treated with this bacteria. It furnishes to them and the soil they are planted in the necessary elements for their growth and development. As far as cotton is concerned, it is given to the soil in a short time and makes it possible for the plants put on land where there never was necessary elements in the soil naturally to make them grow well and bring about a new era. This bacteria has been used with this bacteria to make them prosperous, thrive and succeed when before this discovery was made known it was utterly impossible to make a success of the growing of these plants on soil that was void of all fertilizer before.

Nearly all of our southern lands are absolutely void of sufficient vegetable matter and nitrogen and when treated with certain bacteria and the power immediately after germination to gather from the air great quantities of nitrogen, and even the weakest plants when they sprout will have sufficient strength to begin gathering this nitrogen and grow well and bring about a new era. This bacteria will strengthen day by day weak plants and make strong seeds out of them, and store in the soil on every acre from \$15 to \$50 worth of the highest price fertilizer known. When these plants grow well and bear fruit, you can sell them for \$25 per acre, and it would be impossible for them to do so. There is something like \$150 a \$200 worth of free nitrogen finding every acre in this country, and when you get this for \$25 per acre, you can sell them for \$25 per acre and store this nitrogen in the soil it makes it possible for us to get this free fertilizer on our lands for the following crops and when double out on small acreage, it is to say that it is possible to increase our yield per acre by 50% and increase our yield per acre by 100%.

There is a telling what will be discovered in time to come to help the farmer in the south, and the value of this is to help the rest of the nation, and comes within the reach of everyone. The rich and the poor can get the benefit of this and by the use of these bacteria it has made it possible to succeed in growing cotton and other crops on lands that were heretofore thought to be unprofitable and unproductive being converted into the richest of garden spots and such seeds as we have heard of now are made possible on these lands, largely to the discovery of his nitro-gathering bacteria which since and still has given to us.

Yours very truly,

Erving Brown
